

Flexible Silicone Headlamp

A powerful lighting solution perfect for multiple applications. With its impressive features and comfortable design, it's the perfect tool for mechanics, technicians and DIY enthusiasts.

Part No: IIL1003

Excellent Lighting Performance

- Twin LED design with a striplight COB LED for close-up illumination and XPG LED for long-range lighting
- XP-G + COB LED combination provides 460 lumens maximum output for bright and efficient illumination
- 270° wide beam range ensures comprehensive coverage of your work area

Customisable Lighting Modes

- 5 versatile lighting modes feature a combination of main light, side light, and red light (mosquito repellent)
- Strobe mode available for emergency situations
- The XPE (centre) LED offers low and high settings for 3 hours and 1.5 hours of runtime respectively
- The XPE & COB both high mode delivers 50 minutes of battery life
- The strip light offers 1 hour and 40 minutes of battery life, and the red LED (centre) provides 3.5 hours of runtime

Main Light - Low On

Main Light - Headlight

Main Light & Side Lamps

Side Lamps

Flexible Silicone Headlamp

Part No: IIL1003

TYPE-C CHARGING

Compatible with a variety of charging devices

Fully Charged: 2H

POWER BANK LAPTOP OR COMPUTER POWER SOCKET

CHARGING: Red Light
CHARGED: Green Light

Comfortable & Durable

- Soft and flexible silicone material offers a comfortable fit and durability for long-lasting performance
- Lightweight at just 54g, reducing strain during extended use

Smart & Convenient Features

- Memory function retains the last mode used for easy access
- Type-C charging and built-in 450mAh lithium polymer battery for hassle-free recharging, with a full recharge complete in 1.5 hours
- LED indicator tracks charging progress

Sleek & Practical Design

- Compact size for easy storage and portability
- IPX4 rating makes it water-resistant for various weather conditions
