## THUNDERBOLT INDUSTRIAL JUMP STARTER

# THE MOST AFFORDABLE AND SUPER POWERFUL WORKSHOP TROLLEY JUMP STARTER

Matson has released the MA8000 Thunderbolt, producing a massive 8000 Peak Amps and 2000CCA on the 12 volt setting and 4000 Peak Amps and 1000CCA on the 24 volt setting. The MA8000 Thunderbolt is one of the most powerful workshop jump starts available. Fitted with a stainless steel axle and heavy duty rubber wheels for easy movement around the workshop and yard, this is the "go anywhere" solution to your heavy duty jump start needs.

### Product Features:

- 8000 peak amps starting power
- Bonus RV210 10 amp smart charger for recharging
- 1.7m 50mm<sup>2</sup> high conductivity leads (incl. clamps)
- Industrial grade clamps with brass connection points
- 12V DC power outlet with overload protection
- 12/24V digital volt meter - indicates the voltage of the battery to be jump started when the clamps are first connected and the selection switch is in the "Off" position

### Safety Features:

- Matson's patented ANTIZAP® voltage spike protection - even in the "off" position
- Green flashing light to indicate ANTIZAP® protection
- Warning buzzer and LED alert for reverse connection
- Reverse polarity warning
- On/Off safety switch
- Short circuit protection
