## FAN CONTROL UNITS

### TCU Series

- Electric cooling fans are an integral part of the cooling system in most vehicles today. Many of these electric fans are driven by a fan control unit.
- These modules are developed to operate the electronic cooling fans with a high degree of precision, managing the fan speed to maximise a vehicles cooling efficiency and fuel economy whilst minimising the vehicles energy loss.

#### POPULAR VEHICLES

Part No	Application
<b>TCU001</b>	Lexus ES, GS, LS, RX, Toyota Camry, Harrier, Highlander and Kluger

Part No	Application
<b>TCU002</b>	Mazda MPV, Mitsubishi Lancer and Outlander

Part No	Application
<b>TCU003</b>	Mercedes C-Class and CLK-Class

## HEATER FAN RESISTORS

### TFR Series

- High quality direct replacement air conditioning parts
- Utilised to control heater and A/C fan speed
- Applied via iShop and Tridon Part Finder

Part No	Application
<b>TFR248</b>	Lexus ES300, RX300, RX350, RX400, Toyota Avensis, Camry and Hilux Surf

Part No	Application
<b>TFR249</b>	Hyundai Accent, ix35, Veloster, Kia Cerato, Rio and Sportage

Part No	Application
<b>TFR252</b>	Holden Barina TK

Part No	Application
<b>TFR253</b>	Subaru Impreza and Liberty
