

# BATTERY CHARGERS

HULK Professional Series Battery Chargers are amongst the most powerful and reliable battery chargers on the market. They are MCU controlled which enables the battery charger to charge batteries much faster and safer than traditional battery chargers.

HULK Professional Series Battery Chargers are multi-stage, fully automatic, switch mode battery chargers and maintainers capable of charging a variety of Lead Acid and Lithium rechargeable batteries. Lead Acid types include Wet/Flooded, GEL, AGM, MF, Calcium and EFB.

Battery Charger Accessories such as clamps and connectors also available, refer to website.

- > Fully automatic
- > 2 year warranty
- > Smart option for computerised battery charging and management
- > Automatically diagnose, recover, charge and maintain batteries.
- > No risk of overcharging
- > Spark proof technology and protection against overheating.

## HU6550 Maintenance

### 5 STAGE FULLY AUTOMATIC SWITCHMODE BATTERY CHARGER - 1 AMP 6/12V

- > Switchmode Battery Charger 6 / 12 Volt 1amp
- > 5 Stage Fully Automatic Charge and Maintain with no risk of overcharging
- > Charges all battery types including Lead Acid, GEL, MF, EFB, AGM and Calcium
- > Maintains all battery sizes from 1.2Ah through to 20Ah
- > XB2 Smart Processor automatically diagnoses, recovers, charges and maintains batteries
- > Rescues drained batteries over 2.5 Volts
- > Constant current charging, Memory function, Spark proof, fully protected against short circuit and reverse polarity protected
- > Supplied with Interchangeable battery clamps and eyelet terminals that are direct plug-in into the charger lead
- > IP60 Rating and Protection
- > Dimensions: 110 x 65 x 39mm (L x W x H)
- > 2 Year Warranty

#### Applications

- > Ideal battery charger to set and forget for Motorcycles, Motor Vehicles, Vintage cars, Hot Rods, ATV etc

## HU6552 Versatile

### 7 STAGE FULLY AUTOMATIC SWITCHMODE BATTERY CHARGER - 3.8 AMP 12V

- > Switchmode Battery Charger 12 Volt 3.8amp
- > 7 Stage Fully Automatic Charge and Maintain with no risk of overcharging
- > Maintains all battery sizes from 1.2Ah through to 120Ah
- > XB2 Smart Processor automatically diagnoses, recovers, charges and maintains batteries
- > Rescues drained batteries over 3 Volts
- > Constant current charging, Memory function, Spark proof, fully protected against short circuit and reverse polarity protected
- > Supplied with Interchangeable battery clamps and eyelet terminals that are direct plug-in into the charger lead
- > IP65 Rating and Protection
- > Dimensions: 189 x 63 x 49mm (L x W x H)
- > 2 Year Warranty

#### Applications

- > Ideal battery charger to set and forget for Motorcycles, Motor Vehicles, SUV, Golf Carts, Boats, ATV etc

**HU6554****All Purpose**

## 8 STAGE FULLY AUTOMATIC SWITCHMODE BATTERY CHARGER - 7.5 AMP 12/24V

- > Switchmode Battery Charger 12/24 Volt 7.5amp
- > 8 Stage Fully Automatic Charge and Maintain with no risk of overcharging
- > Charges all battery types including Lead Acid, GEL, MF, EFB, AGM, Calcium and Lithium
- > Maintains all battery sizes from 18Ah through to 240Ah
- > XB2 Smart Processor automatically diagnoses, recovers, charges and maintains batteries
- > Rescues drained batteries over 2 Volts for 12V and 16 Volts for 24 Volt batteries
- > Power Supply function; 5amps at 13.6 Volts
- > Constant current charging, Boost function, Memory function, Spark proof, fully protected against short circuit and reverse polarity protected
- > Supplied with Interchangeable battery clamps and eyelet terminals that are direct plug-in into the charger lead
- > IP65 Rating and Protection
- > Dimensions: 220 x 92 x 60mm (L x W x H)
- > 2 Year Warranty

### Applications

- > Ideal battery charger to set and forget for Motor Vehicles, SUV, Golf Carts, Boats, ATV, Tractors, RV, Trucks etc

**HU6556****Powerful**

## 9 STAGE FULLY AUTOMATIC SWITCHMODE BATTERY CHARGER - 15 AMP 12/24V

- > Switchmode Battery Charger 12/24 Volt 15amp
- > 9 Stage Fully Automatic Charge, MCU controlled
- > Charges all battery types including Lead Acid, GEL, MF, EFB, AGM and Calcium
- > Maintains all battery sizes from 25Ah through to 250Ah
- > XB2 Smart Processor automatically diagnoses, recovers, charges and maintains batteries
- > Rescues drained batteries over 4.5 Volts for 12V and 16 Volts for 24 Volt batteries
- > Power Supply function; 10amps at 13.6 Volts
- > Manual maintenance charging, Memory function, Spark proof, fully protected against short circuit and reverse polarity protected
- > Supplied with external temperature sensor to be mounted near battery to monitor temperature and in turn adjusts charge voltage
- > IPX4 Rating and Protection
- > Dimensions: 260 x 135 x 70mm (L x W x H)
- > 2 Year Warranty

### Applications

- > Ideal battery for Motor Vehicles, SUV, Boats, Tractors, RV, Trucks, Earth moving machinery etc

**HU6558****Professional**

## 12 STAGE FULLY AUTOMATIC SWITCHMODE BATTERY CHARGER - 25 AMP 12/24V

- > Switchmode Battery Charger 12/24 Volt 25amp
- > 12 Stage Fully Automatic Charge, MCU controlled
- > Charges all battery types including Lead Acid, GEL, MF, EFB, AGM and Calcium
- > Maintains all battery sizes from 50Ah through to 500Ah
- > XB2 Smart Processor automatically diagnoses, recovers, charges and maintains batteries
- > Rescues drained batteries over 4.5 Volts for 12V and 16 Volts for 24 Volt batteries
- > LED Display, Manual maintenance charging, Silent Night mode charging,
- > Memory function, Spark proof, fully protected against short circuit and reverse polarity protected
- > Supplied with external temperature sensor to be mounted near battery to monitor temperature and in turn adjusts charge voltage
- > Heavy Duty Battery Clamps and Leads
- > PX4 Rating and Protection
- > Dimensions: 260 x 135 x 70mm (L x W x H)
- > 2 Year Warranty

### Applications

- > Ideal battery charger for Motor Vehicles, SUV, Boats, Tractors, RV, Trucks, Earth moving machinery etc

**HU6560****4-in-1**

## 4 BANK 5 STAGE FULLY AUTOMATIC BATTERY CHARGER - 4 X 4 AMP 12V

- > Switchmode Battery Charger 12 Volt 4 banks x 4amps, total 16amps
- > 5 Stage Fully Automatic Charge, MCU controlled
- > Charges all battery types including Lead Acid, GEL, MF, EFB, AGM and Calcium
- > Maintains all battery sizes from 1.2Ah through to 120Ah
- > XB2 Smart Processor automatically diagnoses, recovers, charges and maintains batteries
- > Rescues drained batteries over 3 Volts
- > 4x Control Panels, Spark proof, fully protected against short circuit and reverse polarity protected
- > Supplied with external wall mounting bracket and 4 sets of Battery Clamps with Leads
- > IP64 Rating and Protection
- > Dimensions: 260 x 246 x 63mm (L x W x H)
- > 2 Year Warranty

### Applications

- > Ideal battery charger for Motorcycles, Motor Vehicles, SUV, ATV, Boats, Golf Carts, RV etc
- > Ideal for workshops
